September 14, 2021

Good Afternoon Grand Peak Families,

Earlier today at 1:45 pm, the administration at Grand Peak Academy was informed by students of a potential concern in the middle school hallway. At no point was there any concern of a threat of harm to anyone in the school. We determined that a "hold" be placed on the middle school hallway while we investigated the concern. The hold was used to keep students and staff in their classrooms upstairs while the investigation was conducted in the middle school hallway. Students and staff continued with the educational process as normal during this holding period. At 2:15 pm, the investigation was concluded and classrooms in the middle school hallway were released from the hold. Again, at no point was there concern for the safety of anyone in our building.

We appreciate your trust in providing the best educational experience for your students. We make every effort to provide them with a safe and caring environment while at Grand Peak Academy.

Sincerely,
Nicole Parker, Principal
